

# How to Backup/Archive Video Footage on your DAHUA DVR/NVR

Note: This is for local back up on physical recorder.

1. From the Main Menu select "Back Up"

2. Plug in USB device such as a flash drive in to one of the USB ports of the recorder.

3. A pop up will show → Select "File Back up"

4. Select "Browse" → Select folder to save back file in or create new folder to save back up.

5. Select "Type" such as Alarm or MD (Motion Detect).

6. Select "Start Time" and "End Time".

7. Select "Channel" → "Add" to add what you have selected. What you added will be in list form.

8. Select "Start" to start back up.
